

DIGITAL AI

ENGAGE **EVERY CUSTOMER, EVERY TIME**

LittleGiant Digital AI keeps your business connected with customers across platforms, ensuring instant engagement and seamless support

WHY CHOOSE DIGITAL AI?

In today's digital world, customers expect quick, convenient responses across multiple channels—websites, social media, and messaging apps. If you're relying on a small team or juggling customer inquiries yourself, it's tough to keep up. With LittleGiant Digital AI, your business can respond to every message, every time, with no delay.

DID YOU KNOW?

- **90%** of consumers say immediate responses influence their choice of service provider
- **3 in 4** customers will switch to a competitor if they don't receive a fast response online.

Key Features of LittleGiant Digital AI

LittleGiant Digital AI, Your Digital Assistant for All Customer Interactions

1 Multi-Platform Integration

Engage with customers on your website, social media channels, Google Business Messages, and even SMS—all from one dashboard. *Keep conversations unified and never miss a customer message, no matter where they reach out*

2 Automated Response & Chat Assistance

Instantly respond to FAQs, booking requests, service inquiries, and more—24/7. *Enhance customer satisfaction by giving them the answers they need, when they need them*

2

3 Lead Capture & Qualification

Identify, capture, and qualify leads as they interact with your digital channels. Avoid losing interested customers to competitors and ensure only qualified leads reach your sales.

3

4 Advanced Analytics & Customer Insights

Track customer interaction trends, popular queries, response times, and conversion rates across channels. *Make data-backed improvements to enhance customer experience and increase engagement*

4

5 Personalized Customer Engagement

Greet customers by name and provide context-aware responses based on past interactions. *Build trust and rapport with your customers, showing them they're more than just a number*

5

6 Seamless Handoff to Human Support

Effortlessly transition complex inquiries to a live representative when needed, without losing conversation context. Ensure customers feel valued and supported, knowing there's always a human backup if needed.

6

WHY DIGITAL AI MAKES SENSE FOR YOUR BUSINESS?

Your customers are online, expecting immediate responses. When they don't get answers quickly, they move on. Digital AI from LittleGiant ensures that your business is responsive 24/7, capturing leads and serving customer needs even outside of business hours. With Digital AI, you can handle multiple inquiries simultaneously, across platforms, with no extra staff or overtime.

- **Capture more leads by being present and responsive across channels.**
- **Increase efficiency with automated responses that free up time for complex customer needs.**
- **Enhance customer loyalty by offering convenient, consistent support across all digital touchpoints.**

With LittleGiant's Digital AI, our customers get immediate responses—even after hours. It handles everything from simple questions to booking appointments, and it's far more than just a basic chatbot.
